Multiple Calendars – Frontier Optional Feature

OVERVIEW

Multiple Calendar is an optional feature providing a method for adding more than one calendar/holiday schedule into Frontier. The Multiple Calendar feature offers:

Convenience

When the Multiple Calendar feature is enabled, buildings that are located in different countries or states can be configured based on their country/state's specific holidays. This feature can also be used for those customers keeping track of union vs. non-union holidays.

Flexibility

Multiple Calendars provides extreme flexibility allowing holiday configurations to be specified per alarm, access group, passback zone, alarm notification group, elevator bank and/or device.

REQUIREMENTS

Frontier

- Version 5.7.1.1.3 or greater
- Multiple Calendar license

Matrix Systems maintains a policy of continuous product improvement. Specifications are subject to change at any time.
