FrontierTM WEB ESSENTIALS

Browser-Based ACCESS CONTROL

Simple, Affordable, Secure

Now small to mid-sized businesses can implement and administer next-generation access control without the investment or complexity of server-based solutions. Out-of-the-box and all-in-one, FrontierTM Web Essentials is easy to install, configure, and maintain.

Easy: FrontierTM Web Essentials' browser-based interface was designed to integrate with HID's VertXTM access control hardware, allowing firms to manage all security needs from a single browser interface.

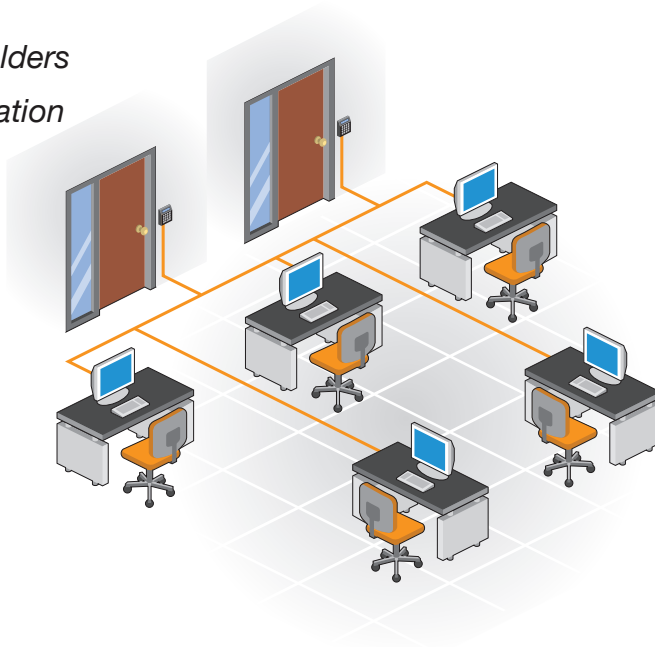

Economical: Cost-effective and easy to maintain, FrontierTM Web Essentials is affordable for small to mid-sized firms.

Simple: FrontierTM Web Essentials allows the firm to take control without installing software or investing in lengthy training.

- **Easy** – No software installation
- **Economical** – No dedicated PC
- **Simple** – Minimal instruction/
reduced training time

Matrix knows security.

- **Potential** Up to 500 cardholders
- **Speed** Network Communication
- **Safe** Security Encryption
- **Scalable** Up to 16 doors

Solutions
