

A blurred image of a person in a dark suit walking away from the camera through a glass door or entrance. The background is bright and out of focus, suggesting an indoor office or public space. The image is partially obscured by a large red geometric shape on the right side of the page.

Matrix 
Systems

An industry leader committed to protecting people, property and information, we've provided our customers with superior security management solutions for over three decades. Ranging from access control to biometrics, video management, wireless technology, credential production, and visitor management solutions, our products are built using open architecture standards and designed to grow with your existing security investments. But it's our people – from our cutting-edge technical partners to our unparalleled customer service, training, and technical support staff – who truly make the Matrix difference.

Matrix knows security.

“We needed a security access control system that would be turnkey for us and keep our healthcare facilities secure. Matrix Systems met all of the requirements with it’s implementation including Frontier access control software, all hardware, Matrix card readers, and superb support. With well over 2,000 doors under control at Cleveland Clinic, it’s reassuring to know we can count on Matrix access control solutions to keep our staff and patients in a secure environment.”

Martin Epstein

*Manager, technical Operations
Cleveland Clinic Foundation*

Experience the Matrix Difference

A commitment to innovative partnerships. An average of ten years’ combined security expertise for each team member. The Matrix difference isn’t just in our turnkey access control and integrated security management solutions...it’s in our outlook. We know that security is more than an investment in technology – it’s a commitment to the people you secure. And every member of the Matrix team, from developers to sales staff to field technicians, takes that commitment very seriously. With 24/7/365 dealer and technical support and the most flexible, forward-thinking access control solutions on the market today, we’re confident you’ll feel the Matrix difference in everything we do.

Dealer Program

Grow your business with us – be part of the Matrix difference. Matrix dealers receive access to our unparalleled technical and customer support, after-hours service and extensive partner resources...and that’s just the beginning. We offer competitive pricing, quarterly volume incentives on all equipment, parts, and supplies, and yearly incentives for dealers who grow their business with us. Our extensive line of leading access control and security management products helps you reduce on-hand inventory, standardize products, and achieve consistent, competitive pricing...all with 24/7/365 access to the unparalleled support and service that’s endeared us to our clients for over 30 years.

“We’ve been a loyal Matrix customer for 27 years and have always been very pleased with the customer service and personal attention we receive from Matrix. A large organization such as Ohio State University Medical Center needs the easy operability and flexibility that Matrix solutions provide.”

Spero Vasila

*Director of Security
Ohio State University Medical Center*

“With other systems, incorporating a variety of hardware vendors, integrators, and other suppliers, access control becomes a difficult task due to the reluctance to modify an off-the-shelf product. The reality is that every facility has unique security needs and therefore requires a system like Matrix that’s adapted to meet those needs.”

Raynier Davalos

*Building Systems Support Manager
Miami International Airport*

Break Free From Proprietary Technology

There’s freedom in the flexibility of Matrix Systems’ open-architecture access control solutions. Our powerful Frontier Universe and Frontier Web Essentials are compatible with proven HID and Mercury Security hardware. And with access to the support Matrix customers have relied on for over 30 years, dealers are free to focus on building their businesses.

Products

The Frontier suite of access control software is at the heart of Matrix product offerings. Providing the latest in IP access control and built with business in mind, Frontier solutions allow you to secure people, property, and information with ease.

“It’s easy to work with Matrix. They are experts in recommending the best methods to integrate all of our technology needs into one easy-to-use system. All of our locations have Matrix installed since it’s important that we have the responsiveness Matrix provides. We also like the resulting improved efficiencies of their solution. We have been a Matrix customer for many years and their personal touch just keeps getting better.”

Charles E. Smith
Corporate Director, Protective Services
OhioHealth

Frontier™ Universe offers mid- to enterprise-sized organizations next-generation, IP-based access control. Compatible with hardware platforms from Mercury, HID, and Matrix, Frontier Universe offers a flexibility unique in the industry.

Frontier™ Web Essentials is an affordable out-of-the-box Web-based access control solution ideal for small- to mid-sized businesses. This solution was specifically designed for HID’s VertX access control hardware.

In addition, our Integrated Solutions include cutting-edge Identity Management, Video Management, Biometrics, Wireless Technology, CyberLock® Integration, Visitor Management, and more.

“We consider Matrix a partner in achieving our campus access control goals for 400 buildings. Matrix solutions allow our individual departments to tailor their access control to fit their business requirements, and we aren’t forced into a cookie-cutter solution. Matrix responds to our needs quickly and helps us to maintain an efficient and secure operation.”

Mark Herro
Assistant Director for Telecommunications
Texas A&M University

Partners

At Matrix, we know the best security management and access control solutions take advantage of deep technical expertise and ongoing industry leadership. That’s why we choose select technology partners to enhance our comprehensive lineup of security management solutions.

Each Matrix partnership involves intensive teamwork, technology sharing, and rigorous testing. The result? Integrated, innovative technologies made seamless through open architecture design standards. Now that’s collaboration that counts. Our Technology Partners include:
